

# Monmouth Council, BSA National Youth Leadership Training

## Personal Goals

Each year we try to pack a lot of information into our training week. In addition, we want you to think about what you might want to accomplish during this week. We ask you to set some goals you hope to achieve for the week. These are not graded, written for the last time, or unchangeable. They are meant to give you time to consider what you need to do for Yourself and for your troop or crew. So, please take the time to write down some of those goals. We will be reviewing them with each of you, and working together to achieve them, so please bring this paper with you. You might consult your parents or Scoutmaster or Crew Advisor, to help you put your thoughts together. See you at NYLT!
